

The Power Buggy

BY *1ndy*

The propane-powered IPB16LP power buggy is the perfect workhorse for those jobsites where air quality is a concern. This buggy is equipped with a factory-installed propane system that delivers the same power as our gasoline powered 16 cu. ft. buggies. With less than 1% carbon monoxide emission the IPB16LP is in compliance with OSHA, EPA & CARB standards.

STANDARD FEATURES:

- Honda GX390 Electric Start 13 hp Engine
- Propane Fueled
- Foam Filled Wheels
- 16 Cubic Foot Bucket Capacity (453L)
- Travel Speed 7.25 mph (11.67km/h)
- Off-Center Propane Tank Mount For Better Forward Visibility

PROPANE POWER BENEFITS:

- Lower Fuel Costs
- Cleaner Exhaust Emissions
- Less Carbon Build-Up
- Extended Engine Life Expectancy
- Closed Fuel System Inhibits Fuel Contamination
