## What's New?

### More power and tougher tires

24 amp-hr battery pack comes standard on 2WD carts

39 amp-hr battery pack comes standard on 4WD carts

Semi pneumatic flat free tires come standard on most carts

### Information at the click of a button

You'll find QR codes on several products in our catalog. Scan them using your phone's camera for more information. No special apps required on newer phones.

## Need a reason to choose Overland? We'll give you 10.

- 1. Easy to operate** – So easy to use, even a child can safely operate the cart. Plus it reduces back and muscle strain.
- 2. Made in the USA** – Quality you can feel. Engineered, manufactured and assembled by Granite Industries in Archbold, OH.
- 3. All electric 24v power** – Zero emissions, zero fumes, environmentally friendly, and virtually no noise.
- 4. Minimal Maintenance** – No oil filters, air filters, or gas to add. Just remember to plug it in.
- 5. Long Battery Life** – Operate the cart 6-8 hours on a single charge.
- 6. Brute Strength** – Load the cart with up to 750 pounds on a level surface.
- 7. Lightweight/Easy Transport** - Most carts weigh under 200 pounds which allows two people to easily lift and move the cart, as needed. The carts fits in the back of a pickup for easy transport.
- 8. Huge Capacities** – Hopper sizes range from 6 cu ft to 20 cu ft. Our most popular size is 10 cu ft which is double a traditional wheelbarrow.
- 9. Customer Service** – If there is ever an problem or question, our support team in Archbold, OH will help to resolve your issue in a timely manner.
- 10. Safety Features** - Numerous safety features have been implemented to ensure that the user of the cart is always protected. AutoLock, HillSense, and SmoothStart are just a couple features that come standard on every cart.

## Overland Power Carts Warranty

1 year warranty on all electronics, drive components and tires.  
3 year warranty on steel & aluminum components.

## Satisfaction Guaranteed

Granite Industries is committed to making sure each Overland cart meets your expectations. All carts come with a 15 day money back guarantee. If you're not satisfied, simply contact Granite Industries at 877-447-2648 for a return authorization.

# ABOUT OVERLAND CARTS

## Built with you in mind.

### Our carts come fully assembled

All Overland carts come fully assembled, fully charged and ready to use. All you have to do is open the crate and drive the cart away.

### We designed our carts to be simple to operate:

- To turn on, pull the red On/Off switch out towards you.
- Toggle the black switch for forward and reverse.
- Grasp and twist the throttle.
- To turn the cart off, simply push the red button in.

### Safety Features

- **Emergency Stop** – The red E-Stop button allows the user to immediately stop the progress of the cart.
- **AutoLock** – Automatically locks the wheels when the throttle is not being applied. This feature prevents the cart from rolling away from the user and also provides easy loading and unloading on inclines.
- **HillSense** – Allows the cart to be used safely on inclines and declines. The cart will travel at the speed set by the user, not by the incline or decline.
- **SmoothStart** – On acceleration, power is applied to the drive tires in a controlled manner ensuring a smooth start each time.
- **Four Wheel Design** – All Overland carts have at least four wheels to provide maximum stability.

### Free Wheel Mode

If the battery runs out, the cart can be manually pushed the rest of the way home.

### They've been tested (again and again)

The standard 24 amp-hr rechargeable battery packs have been extensively tested. We are confident to rate the batteries with a 6-8 hour real world capacity. The cart was tested with three different weights (0 lb, 300 lb, 600 lb) and driven on both grass and pavement.

## Quick Questions

**How Do I Dump the Cart?** Overland carts are very easy to dump. Simply pull out the spring loaded G-Pin on the side of the cart and tip the bucket forward. Be sure to lock it back in place after the hopper has been dumped.

**When and how do I charge my batteries?** For the best battery life, charge the cart after extended use or at the end of the work day. It's preferable to let the batteries charge overnight by plugging the cart into a 110V outlet. Don't worry, we added a battery management system that prevents overcharging.
