Profitable!*

Profitable Heat Technology For The 21st Century

Why Should You Fleet With CAMPO Heaters?

CAMPO Hand Carry Electric Heaters Blaze EB1.5E, EB3E, EB6/9E, EB18E

Manufactured to maximize your ROI and impress your customers!

These small but mighty heaters are designed with two ideas in mind. Job site flexibility and durability, which will positively affect your bottom line ROI!

The CAMPO fan designs deliver up to more than double the CFM output of our most popular competitors.

- > With more warm air circulating, the environment heats faster, people are more productive and the work gets done faster!
- > The Campo fan runs continuously to keep the workspace comfortable. Painters, Drywallers and Coaters will notice their work being completed faster as the fast moving air wicks the moisture off their work surface! (EB1.5E excluded)

CAMPO heaters allow you to cut your SKU's/ CAT-Class's by 50%!

- > The Blaze EB6/9E is two heaters in one... with the ability to run on a 30 OR 50 amp circuit with the flip of a switch.
- > The EBBlaze 18E can be converted from 1ph to 3ph with the flip of a switch.
- > The Blaze EB18E is designed to run on 208v OR 240v

**EB18E
Control Panel**
1ph to 3ph

**EBB6/9E
Control Panel**
30 or 50amp

We Know Attention to Detail and the 'Little Things' add to your Profitability!

- > All CAMPO Electric Heaters are stackable, taking up less storage space in the off-season
- > Powder coated Steel construction for durability
- > The heating coils are wrapped in Stainless Steel for long-life and durability
- > User Friendly
- > Overheat protection built in to every heater
- > UL/CSA*

Blaze EB60E and EB150E... The Highest Performing, Highest Value Electric Heaters in their class!

In keeping with CAMPO's mission to deliver high value, job-site flexible heat solutions, the Blaze EB60E and EB150E do not disappoint!

- The huge volumes of CFM produced by these heaters 'blow away' the competition!
- A convenient 240v/480v switch on the B60E gives you 2 heaters in 1!
- Switch the elements 'on or off' to meet the varying power demands on the jobsite!
- Narrow body design, casters and fork pockets allow for custom placement of heat.
- Rugged and weatherproof, yet stylish for events and high profile areas. VERY quiet!
- Capable of recirculation... saving energy dollars!
- Manual Fan Override - allows the fan to run full time... changing out the air and keeping the work/event space fresh and warm!

Custom Paint

Build your companies 'brand awareness' by fleetting up with your corporate color!

For the Tent and Event industry...

Consider fleetting with an elegant white heater and matching duct! Remember that CAMPO heaters run smoothly, are very quiet and deliver more air. Your space will warm up much faster, guests will be more comfortable and your client will be really happy!
