

# PELICAN TRANSPORT CART

## Precision Pouring

Moulded pouring spout allows for precise pouring of material without any build-up.

## Quick Clean-up

Easy clean canister with no rim or edges

## Fully Loaded

Holds a full 6 bag Mega Hippo mix

## Easy Roll

Rubberise castors provide optimum manoeuvrability on flat floors allowing accurate pour and spread of material simultaneously.

## High Rider

Large handle at an increased height allows for precision control and pouring.

## Long Life

Hard wearing LDPE canister for minimal wearing when mixing

## Foot Release

Foot activated tilt release lever

## Rugged & Compact Design

The robust, powder coated chassis and cradle will fit through a standard doorway.

## Easy Roll

Rubberised castors provide optimum manoeuvrability on flat floors allowing accurate pour and spread of material simultaneously. Fitted with splatter guards, keeping the bearings clean.

## Ultimate Control

Large, offset, T-shaped handle at an increased height allows for precision control and pouring. Also reducing back pain from long shifts of bending and pouring.

## Turn It Into A Mixer!

With the addition of the motor mount, hand mixer, liner and lid, the Pelican quickly earns its place as the mini mixer on-site. Mixing up the three bags, this agile mixer can complete the smaller tasks while the Mega Hippo takes a well-earned break.
